Other work

- The SACO Music funnel website on the MLA site is now up and running with forms for subject and medium of performance submissions. There is also guidance on how to submit a term for LCMPT that will act as bridge guidelines until LC has completed the "official" guidelines. The site is at: http://www.musiclibraryassoc.org/mpage/cmc_saco
- I will continue work on the remaining LCGFT terms and integration issues with Janis until June 30, where it will be taken over by the Vocabularies Subcommittee. I would suggest, however, that any Vocabularies subcommittee submissions still go through the funnel, so we know where it comes from.
