

## **SACO Music Funnel Report**

*Submitted by Nancy Lorimer  
Coordinator, SACO Music Funnel*

Since last MLA, 10 LCGFT terms, 4 LCMPT terms, 3 subject headings (LCSH) and 2 classification numbers submitted through the Funnel were approved or are on the tentative lists. Further, 9 terms in LCGFT were submitted for changes to the broader term, as part of the Vocabularies Subcommittee project to correct the Electronic dance music hierarchy. The approval rate for proposals was 100%. There is, however, a continuing controversy over the relationship of Rap to Hip-hop which remains to be resolved; the current relationship, in which both are NTs of Popular music, was not the choice of Vocabularies Committee or what was submitted.

The Library of Congress has begun to review LCGFT terms for films and sound recordings, which were some of the earliest terms in the thesaurus. This has resulted in the removal of the limiting scope note for Sound recordings, and the removal of several terms beginning “Filmed...” Most notably for music catalogers, the terms “Filmed operas”, “Televised operas”, and “Filmed operettas” have been canceled. Instead, catalogers are instructed to use 2 terms—the genre term (in this case, “Operas”, since “operettas” is a UF for “Operas”) and the term “Filmed performances”. For similar remaining terms, such as “Concert films”, “Rock concert films”, “Concert television programs”, and “Rock concert television programs”, LC is hoping that the music community will take the initiative to propose these terms be dropped.

### **LCGFT Terms (new or changed) submitted through SACO Music Funnel**
