

**SACO Music Funnel
Report for MLA Annual Meeting 2022
February 15, 2022**

During the past year, I worked with members of the music cataloging community and with the Vocabularies Subcommittee's Vocabularies Maintenance Task Group on several terms. Areas of work included in-depth revision of terms related to musical theater in both LCSH and LCGFT. This work involved revising all scope notes to reflect consistent definitions of each genre, as well as revision of the notes fields to include each related term in the records for the other terms.

Recently I have been working with the new incoming SACO funnel coordinator, Leo Martin, on training, proposals, and revisions to the SACO music funnel web pages. Questions regarding anything SACO-music-related should now be sent to Leo at: [mr.martin.leonard\[at\]gmail.com](mailto:mr.martin.leonard@gmail.com)

A goal for the upcoming next year is to focus more on addition of new terminology rather than on revisions to existing terms, though such revisions will of course be necessary and continue to be included in the work of the funnel.

The lists below indicate approved terms as well as terms currently under review by the LC Policy, Training, and Cooperative Programs Division. The list does not include the 20 voice and chorus terms discussed in the SACO 2021 report to MLA, which were approved early in the 2021-2022 year.

Beth Iseminger
SACO Music Funnel Coordinator
